This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. PREFACE

In Part VIII, it was announced that Part IX would be an Index Volume, giving Lists of all the Proper Names, Officials, Divinities, Countries, Peoples, Cities, etc., found in Parts I–VIII, with references to their British Museum registration numbers and to the numbers which they bear in this Series. This Index Volume will appear as a later Part in the Series.

The present Part contains the texts of ninety-eight tablets. On seventy-four of these the name of the scribe is to be found; on twenty-four the name has been broken away. The headline is the reading of the name of the scribe found in the Letter over which it stands. The name of the person addressed is placed in the headline over two or three Letters in which the name of the scribe is broken away. No attempt has been made to classify Letters on which the names of the scribes are broken away, as this more naturally falls within the province of the commentary.

Index I is a Table of Contents. Index II is a list of the tablets arranged according to their numbers in the Kouyunjik Collections. Index III is a list of tablets published in Parts I–IX, the superior numeral indicating the number of the Part. Compare Part VIII for Index IV, which gives a list of the tablets published in Parts I–VIII arranged according to the names of the Scribes, with references to their British Museum registration numbers, and to the numbers which they bear in this Edition.

Twenty-seven or twenty-eight of the Letters contained in this Part have been published by previous editors, and I am much indebted to them for their copies. To WINCKLER, a fellow student under SCHRADER, I am especially indebted for his carefully prepared copies of twenty-three Letters, namely, KK. Nos. 233, 844, 894, 1146, 1238, 1245 (to which, since his publication, 83-1-18, 107 has been joined), 1269, 1287, 1355, 1459, 1542, 1580, 1610, 1621*b*, 1881, 1895, 2645, 2701*a*, 2889, 4287, 4447, 4724 and 4776. I have not been able, however, to accept all his readings, and I may also say that I do not expect scholars to accept all mine. Many of the tablets are broken and difficult to read, and in such it is often impossible to form a connected text. Again, in the Letters there are as many different handwritings as there were scribes. Hence, there will be many places where scholars may differ from my readings. In the final collation of all the Letter texts, I myself hope to be able to decide the readings of many passages, about which there is, to my mind, still some uncertainty.

I am much honoured by the attention shown to this class of literature, and I wish to state here that as soon as the texts are published they become public property, and anyone may use them for any purpose he may wish. This work by my fellow students will in no way interfere with my original plan as described in Part I and again in Part IV, and I see no reason to depart from this plan as outlined seventeen years ago. Hence, I shall continue to publish the texts until the *Corpus Epistolarum* is completed, and again I express the hope that the Parts will appear more frequently in the future than in the past.

Part X is in preparation.

I wish especially to acknowledge my obligations to DR. E. WALLIS BUDGE, the Keeper of the Department of Egyptian and Assyrian Antiquities, British Museum, for

his courtesy and for the great assistance which he has afforded me in the preparation of these Parts. It was at his suggestion that the work was originally undertaken, and without his sympathy and assistance it would not have been possible to carry it out. I am indebted also to the other members of the Department, MESSRS. KING, HALL, SCOTT-MONCRIEFF and HANDCOCK for their unfailing courtesy. To MR. KING I am also grateful for suggestions as to the reading of several signs.

To my former teacher, PROFESSOR FRIEDRICH DELITZSCH, of the University of Berlin, I have the honour to dedicate this Volume.
